Independent study abroad transfer credit students are students who are studying abroad through another U.S. university or foreign university and transferring the coursework taken abroad back to Texas A&M University.

This report has been prepared on the basis of the data obtained for 2005C, 2006A and 2006B independent study abroad programs.

This report provides an insight to the GPA distribution of the participating students. It is expected that this report will provide some input data to the assessment of students and also it will help the university decide whether or not there should be a GPA requirement for participation.

**Quick Facts:**

The statistics are based on a total number of 343 undergraduate independent credit transfer study abroad students. It may be noted that, there is only one student in the U2 category, from Agriculture and life Science college for which the GPA is below 2.0.
